## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

It was not found to be taught in the prior art of a key repository process including a database for storing sets of symmetric keys, wherein each symmetric key includes an integrity key for ensuring the integrity of information stored in the database and a protection key configured to protect sensitive information on the database. The database stores within operator entries used to retain the value of the integrity key and owner entries used to retain a share of the protection key.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
